

Test Specification

Test Format

IMAT is a pen-and-paper test, consisting of a total of 60 multiple-choice questions divided into four sections. All questions have five options, of which only one is correct. Candidates have 100 minutes to complete the test and the format is as follows:

Section 1

10 questions - Logical Reasoning
12 questions - General Knowledge

Section 2

18 questions - Biology

Section 3

12 questions - Chemistry

Section 4

8 questions - Physics and Mathematics

Scoring

A candidate's total score is calculated using the following formula:

1.5 points for each correct answer;
-0.4 points for each wrong answer;
0 points for each question not answered.

An overall total score (maximum 90 points) will be reported, together with a score on each of Logical Reasoning, General Knowledge, Biology, Chemistry, Physics and Mathematics.

Level of Difficulty

The level of difficulty of the test items will be targeted to discriminate effectively between applicants, including those who may have achieved the highest possible grades in school examinations.
