about BMU

Book My University was incepted a few years back but it took shape recently when digitalisation of the admission process became the need of the hour. This is just not a website, its an initiative. An initiative to bring transparency across borders for making the process of getting education easy, safe and authentic.

Why choose BMU?

Education is one of the basic necessities of life and one of the factors that shapes a person's future. Education knows no boundaries.

We at BMU, have understood how essential it is for you to have the right kind of support to pursue a study abroad programme.

We offer you end to end support including in depth research to identify a university that suits your needs, to processing your admission; taking care of your visa & travel arrangements.

In short, we are consultants of choice for a seamless journey to an education of your dreams.

Choose your study abroad Consultant wisely to make an informed decision.

most promising **study abroad** consultancy

2016

2017

2019

- Tuition fee starts from Rs. 2 lakhs on wards per year
- No donation or capitation fee is to be paid
- Universities recognised by Medical Council of India (MCI) and World Health Organisation (WHO).
- Degree is internationally valid and accepted

Indian Graduates with Foreign Medical Degrees – What does the law say?

Indian students can seek medical qualification from any recognized medical education institution in a foreign country. To be able to practice in India after obtaining their degree abroad, the students are required to register with the State Medical Council (SMC). Further, SMCs register a student with foreign medical qualification only after he appears and gets through the Foreign Medical Graduate Examination (FMGE) conducted by the National Board of Examination (NBE). The FMGE is conducted twice a year in June & December and a candidate has to score a minimum of 50% marks in each of the papers to be declared passed. A candidate has a maximum of 3 attempts to pass the examination.

This is a statutory requirement as per section 13(4A) of the Indian Medical Council Act, 1956 amended in 2002. Those who hold an under graduate as well as post graduate medical degree from the following countries need not take the FMGE and they can directly be registered by the SMCs. This is applied until NeXT.

WHY DO MEDICAL ASPIRANTS GO ABROAD?

PARIAHS OF MEDICAL COMMUNITY IN INDIA

COUNTRIES EXEMPTED FROM FMGE

- Australia
- Canada
- New Zealand
- United Kingdom
- United States of America

All these countries do not provide direct admission, student has to give their entrance examination and per year fee starts from Rs. 18 to 30 lakhs

What is ECTS? The European Credit Transfer and Accumulation System (ECTS) was first introduced in Europe in 1989 within the framework of the ERASMUS Programme (at the present moment SOCRATES Programme) providing for integrated interstate educational results, academic recognition and giving credit in the subject studied, assessment and comparison procedures. The ECTS aims at study qualification recognition support not only within one country but also in other countries - participants of Bologna Process. The ECTS is a person-oriented system which is directed at a greater degree of clarity in the comparison of results through educational processes.

USMLE EXAM PATTERN

Medical School	USMLE	Location	Type of Exam	Exam Fee
1st to 3rd year Basic sciences	USMLE Exam step 1 can be taken at the end of the 3rd year in medical school	In your home country or in the country of your medical school	Multiple choice exam (objective questions)	USD 820

Upon graduation	You're now ready to take the USMLE Step 2 CS	Exam are conducted only in the United states of America	USMLE Step 2 CS is designed to assess clinical skills through simulated patient interactions, in which the examinee interacts with standardized patients portrayed by actors. Each examinee faces 12 Standardized Patients (SPs)	USD 1440

We don't offer cheap packages we provide best counselling and make you choose college as per your budget and profile.

How many students passed the Screening Test (FMGE) Overall, 2019 & 2020

National Exit Test for Final-Year MBBS Students to be Held in 2023: NMC

The National Exit Test (NExT) will be conducted in the first half of 2023, informed Union Minister of Health and Family Welfare, Mansukh Mandaviya. The decision was made in a review meeting with the National Medical Commission (NMC) on July 30.

Govt is committed to creating quality Medical Education, Transparent Examination infrastructure and Health Services, said Mandaviya.

The results of NExT both steps 1 and 2 will be used for the qualifying final MBBS exam, to get a license for practising medicine in India as well as for the merit-based allocation of postgraduate (PG) seats in broad specialties. The exam will be the same for everyone whether trained in India or outside, thus solving the problem of foreign medical graduates (FMGs) / Mutual recognition, the health ministry said.

A mock exam will also be conducted in 2022 to prepare the students for the first-ever NeXT. "As apprised by officials of NMC in the meeting, efforts are underway to ensure that the National Exit Test (NExT) will be conducted in the first half of 2023 as per the roadmap. To test the procedure and remove anxiety among medical students, a Mock Run is also being planned and will be conducted in 2022.," the ministry added.

During the review meeting, the ways to conduct NExT in a world-class manner were also discussed and deliberated. While addressing the meeting, Mandaviya also said that the government "is committed to creating quality medical education and transparent examination infrastructure and health services and is relentlessly working with all stakeholders to achieve this objective."

4. Clinical rotations in Hospital MEDINA.

IVANE JAVAKHISHVILI TBILISI STATE UNIVERSITY (TSU)

Ivane Javakishvili Tbilisi State University (TSU) is the first national university in Georgia and the first higher education institution in the South Caucasus region. It established formal education in the country, created the local intellectual workforce and paved the way for human development and democracy. For over 100 years TSU has granted degrees to men and women and promoted the ideals of equality, justice and progress.

The University was founded on February 08, 1918 as a comprehensive European-style higher education institution. Majority of its 12 founders had received higher education in the European countries and brought their knowledge, experience and contacts to TSU, thus establishing the Georgian higher education system on truly Western values. Being a national university, TSU has always delivered schooling in Georgian language making it the only institution of higher education to do so in the former Russian empire. The Centennial anniversary of Tbilisi State University, celebrated nationwide, was an event organized under the auspices of UNESCO.

The history of higher medical education originates from October 1918 when the Faculty of Medicine was established at the Tbilisi State University. Since May 1919, by decision of the Board of Professors, the Medical Faculty continued to exist as an independent unit until 1930 when the Tbilisi State Medical Institute was founded on the basis of the Medical Faculty.

Ivane Javakishvili Tbilisi State University is one of the top public universities in Georgia. It is ranked #571-580 in QS Global World Rankings 2022.

EUROPEAN UNIVERSITY

European University is an authorized higher education institution with the status of an educational university, which implements higher education programs in accordance with the rules established by law and issues a certificate of qualification recognized by the state.

The Faculty of Medicine of the European University has been operating since 2014. The aim of the faculty is to ensure the training of students in the field of health care in terms of academic freedom and institutional autonomy.

The teaching process at the faculty is led by well-known and recognized specialists in the field, who have many years of medical and pedagogical experience. A variety of teaching and assessment methods provide the opportunity to master not only theoretical knowledge but also practical skills.

The Faculty of Medicine has signed cooperation agreements with about 60 clinics in Georgia, as well as with medical universities of different countries around the world. Professors and students of the Faculty of Medicine are members of various international scientific and professional associations. Based on all the mentioned above, apart from the practical training provided by the program, students have the opportunity to have clinical practice at various university clinics around the world, also to get involved in ongoing research projects at the faculty and participate in local and international scientific events. The student scientific journal "Biomedical and Core Clinical Research Practice" has been published since 2020.

There is a simulation center at the faculty, where clinical / sectoral skills are taught and assessed through modern medical technologies, mannequins in a simulation clinical environment.

CAUCASUS INTERNATIONAL UNIVERSITY (CIU)

Caucasus International University, established in the year 1995, is a higher education institution imparting MBBS education in Georgia. Caucasus International University is one of the biggest medical universities in Georgia. It is recognized by WHO, MCI, and many more international professional groups. Caucasus International University has formed into a huge scale, a well-managed comprehensive university with good medical teaching staff. It has an advanced system of medical education, and it trains students with the help of updated education technology of MBBS study. The university embraces the high-tech methods of practical medicine that empower students to be focused, competitive and flexible in the world market. Currently, an area of approximately 17,000 sq.m. is used for academic purposes. CIU facilities include: student cafeteria, sports facilities, library equipped with electronic technologies and book collections that consist of modern literature published in Georgian and other foreign languages, CIU multimedia center, laboratories of biochemistry and microbiology, and a clinical skills development center equipped with modern technology, the anatomy study room is equipped with modern molding machines, scientific-research laboratory of neurosciences and applied physiology, phantom rooms, dental clinics for CIU students and residents, a simulated courtroom and a legal clinic.

TBILISI STATE MEDICAL UNIVERSITY

Tbilisi State Medical University was solemnly opened on 8th of February, 1918 (old style 26th of January), the day of remembrance of the Georgian King David the Builder. Since that, this day remains one of the most significant events in the history of the nation.

The Tbilisi State Medical University (TSMU) is the main center of higher medical education in Georgia, with an almost hundred-year history. Actually, higher medical education in Georgia is of the same age as well. It is noteworthy to emphasize that thousands of our university graduates continue their professional careers in many leading clinics and institutions of Georgia, Europe and the world as a whole.

English-Medium Medical Faculty was independently established in 1996 on a Medical Faculty base. The Faculty of Medicine was established in 2006 on the base of the Faculty of Medicine, Pediatrics, Psychotherapy, Psychosomatic Medicine and English Medical Faculties.

LIST OF SERVICES DURING YOUR ADMISSION

COUNSELLING

Counselling is the most important part of the admission process which help the student to identify their needs and preferences and allows us to suggest them the best medical university for them. That's our USP.

1. We help the parents and students to select the most suitable medical university abroad in the most preferable country according to their preference and budget.
2. We share the proper fee structure with all the charges incurred in the process and during the study period.

ADMISSION PROCESS

Admission process is where the student has decided the medical university after extensive counselling sessions with BMU Experts. Then we are in the position to finally move forward to the admission process.

1. We instruct the students about the documents required to apply in that particular university making sure not to miss any to avoid any delay.
2. Once the student provides all the documents either in physical form or virtually we communicate with the university and apply professionally.
3. Within 3-7 days we expect to hear from the university and get the admission letter. The same is forwarded to the student.

VISA PROCESS

Visa process is another most significant step to be performed with utmost care, all the required documents as per the laws and guidelines of the particular country are instructed to the student, simultaneously the visa section BMU prepares the later part which includes majorly translations and attestations

1. All documents are received by the BMU team from the student either physical handover or via courier (BlueDart) and are sent for attestations and legalisation.
2. Once the documents are ready the file is prepared as per the embassy of the country's norms.
3. The files are submitted by BMU personnel to the authorities which will then process admission.
4. Required communications are made to the Embassy and the University to ensure hassle free visa process.
5. The visa get stamped by the stipulated time period and handed over to the students.

POST DEPARTURE SERVICES

1. Airport pick up from the destination country
2. SIM card
3. Travel arrangements from the Airport to the hostel
4. Hostel Allotment
5. Welcome Meal
6. Documentation at the University
7. Assistance in opening Bank Account & Other services
8. Tourist visa assistance for Parents in Future
